

PSN# PSN001214u

Original publication date: 6-Mar-2007. This is Issue #1, published 6-Mar-2007.

Severity/risk level Medium

Urgency When convenient

Name of problem Daylight Saving Time Notice for Expanded Meet Me Conferencing (EMMC)

Products affected

Expanded Meet Me Conference (EMMC)

Problem description

EMMC is not a time-dependent application and patching it for DST changes is optional.

Resolution

The EMMC application is **not** time dependent. Furthermore, there is no user interface, no scheduling capability, no reporting of conference start and end times to Avaya CM.

The current shipping version, EMMC 1.0.17, uses CM 3.0 and runs on the S8500 Media Server. Instructions for patching this software are available in the "Patching S8xxx Media Server" section of [PSN 1027U](#).

Impact of not applying the patch: log messages during the period from March 11 to April 1 2007 and conferences scheduled between October 28 and November 4 2007 will be off by 1 hour.

A new EMMC version, 1.0.21 will be available in March and this based on a load CM 3.1 which includes the OS DST fix. This new EMMC version will be the default shipping version for CM 4.0.

Workaround or alternative remediation
