

End of Sale Notice

Notification Date: July 18, 2011
Effective Date: February 6, 2012
Subject: SoundStation2 EX Conference Phone (Analog)
End of Sale (EoS)
Theatre/Region: Global

Summary

Effective February 6th, 2012 Avaya will no longer sell (make commercially available) the "SoundStation2 EX Conference Phone - Analog" material codes listed in the table below.

The change is being made to simplify the Avaya analog conference phone offering. With the introduction of the B100 Series analog conference phone models earlier this year, Avaya now offers two highly featured analog models (B149/B159). The B100 Series also delivers several new advanced capabilities and accessory options (see the migration options section later in this notification for further details).

The "SoundStation2 EX Conference Phone - Analog" EoS does not impact the Avaya IP Conference Phone models such as the 1692 IP Conference Phone (H.323) or 2033 IP Conference Phone (UNISim). The 1692/2033 models remain in the Avaya portfolio offering as the fully integrated IP-based audio conference solutions with their respective H.323 or UNISim Avaya call server platforms.

Discontinued Order Codes and Migration Strategy

Discontinued Codes

Material Code	Description
700373541	SPKRPH SNDSTA2 EX 110V
700373681	SPKRPH SNDSTA2 EX 220V
700373582	SPKRPH SOUNDSTATION2EX- OTHER EU
700373558	SPKRPH SOUNDSTATION2 MICS
700373566	SPKRPH SOUNDSTATION2 MICS EMEA/APAC

Migration Strategy

Avaya customers requiring an analog conferencing solution should migrate to the Avaya B100 Series Conference Phone models.

Specifically, the recommended replacement model is the B149 Conference Phone (Analog) which matches the SoundStation2 EX capabilities, but also delivers the ability to support several new advanced functions such as integrated Secure Digital (SD) memory card recording.

For customers requiring additional analog conference phone functionality and connectivity options (e.g. USB or Mobile devices), the B159 Conference Phone model should be evaluated.

The following table captures the SoundStation2 EX recommended replacement solution (B149 model) and associated material codes. Additional B159 and B100 Series accessory material codes can be found in the current Avaya price list.

Replacement Part Codes

SoundStation2 EX EoS Material Codes	Description	Recommended B149 Replacement Material Codes	Description
700373541	SPKRPH SNDSTA2 EX 110V	700501533	AVAYA B149 ANLG CONF PHONE
700373681	SPKRPH SNDSTA2 EX 220V	700501533	AVAYA B149 ANLG CONF PHONE
700373582	SPKRPH SOUNDSTATION2EX - OTHER EU	700501533	AVAYA B149 ANLG CONF PHONE
700373558	SPKRPH SOUNDSTATION2 MICS	700501539	AVAYA B100 SER EXP MIC 1PR
700373566	SPKRPH SOUNDSTATION2 MICS EMEA/APAC	700501539	AVAYA B100 SER EXP MIC 1PR

Avaya B149/B159 Conference Phone (Analog) Offering:

Avaya B100 Series Conference Phones feature Avaya OmniSound® 2.0, a patented audio technology designed to deliver crystal-clear voice transmission.

Avaya B149 Conference Phone

Avaya B149 Conference Phone (Analog)

- Simple, sophisticated solution extends crystal clear sound and smart productivity features to private offices as well as small and midsize conference rooms.
- Save contacts in the phone book and use the conference guide to easily set up multi-party calls or pre-programmed group calls.
- Use the built-in recording function to record calls on a SD memory card.
- More details: [Avaya B149 Conference Phone Fact Sheet](#)

Avaya B159 Conference Phone

Avaya B159 Conference Phone (Analog)

- Simple, sophisticated audio conference solution extends crystal clear sound and smart productivity features to board rooms and large conference rooms
- Use the line mode to switch between and combine three connectivity technologies—analogue, cell, or USB (enables users to make VoIP calls with the B159 Conference Phone through a PC).
- The conference guide lets you make multi-party calls and save call groups—highly useful if you make frequent calls to the same group
- Use the built-in recording function to record calls on a SD memory card.
- More details: [Avaya B159 Conference Phone Fact Sheet](#)

Optional B100 Series accessories are available for larger sized rooms or for more meeting participants.

- Expansion microphones help increase the conference phone audio coverage/pickup range.
- Wireless headset connection and PA system to meet the sound requirements for larger groups or unique deployment configurations

Further details on the Avaya Conference Phone portfolio, including the IP-based models (e.g. B179, 1692, and 2033), can be found at: <http://www.avaya.com/usa/product/conference-phones>
