

## **IQ - Adobe Flash Player End of Life**

**Date: December 1, 2020**

IQ uses Adobe Flash to render APC real time displays on the client.

Removal of Adobe Flash will affect:

- APC User Interface.

Customers running these displays have the following options:

1. Start using classic real-time displays, that do not require Adobe Flash.
2. For Adobe Flash suggestions please see the reference to HARMAN in the link below.  
<https://blog.adobe.com/en/fpost/2020/update-for-enterprise-adobe-flash-player.html#gs.jzyaek>
3. Use another browser that supports Adobe Flash (for example, an open source browser: Pale Moon is expected to continue to support Adobe Flash for the foreseeable future).
