Publication date 27-Mar-2006

Issue # 1 Issue date 27-Mar-2006

Severity/risk level Medium

Urgency When convenient

Name of problem Incoming analog trunks stay in active state and do not go idle

Products affected

Communication Manager, Release 2.0 through 3.1
G250, G350, and G700 Media Gateways
S8300, S8400, S8500, and S8700 Series Media Servers

Problem description

A G700, G350, or G250 Media Gateway incoming analog call does not disconnect properly if the call arrives from a vector collect digit step with an announcement. The incoming trunk stays in the active state and does not go idle.

Resolution

If the PSTN provides busy tone for disconnect signaling, you need to administer the proper definition for busy tone. You also need to administer busy tone disconnect on the trunk.

Workaround or alternative remediation
