## Avaya Integrated Management Release 4.0.1 Documentation Map

14-602383  
Issue 1  
May 2007

This map summarizes the documentation library available for Avaya Integrated Management Release 4.0.1, including:

- Enterprise Network Management
- Enterprise Network Management for Distributed Office

### **For overview information, refer to**

#### **Avaya Integrated Management Release 4.0 Overview**

14-601718, Issue 2, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0/14\\_601718\\_2.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0/14_601718_2.pdf)

Provides an overview of the Avaya Integrated Management R4.0 and R4.0.1 offers, including: Administration Tools, VoIP Monitoring Management, Enterprise Network Management, Enterprise Network Management for Distributed Office, and System Management. It also provides high level information on the applications within the offers. 40 pages

### **For installation and upgrade information, refer to**

#### **Avaya Integrated Management Release 4.0.1 Enterprise Network Management Installation and Upgrade**

700445216, 14-300444, Issue 4, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_300444\\_4.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_300444_4.pdf)

Provides pre-installation tasks that must be completed prior to installation and procedures to install products in the Integrated Management Enterprise Network Management offer. It also provides hardware and software requirements for Microsoft Windows servers and Windows client PCs. 30 pages

#### **Avaya Integrated Management Release 4.0.1 Enterprise Network Management for Distributed Office Installation**

700418965, 14-601539, Issue 1, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_601539\\_1.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_601539_1.pdf)

Provides pre-installation tasks that must be completed prior to installation and procedures to install products in the Integrated Management Enterprise Network Management for Distributed offer. It also provides hardware and software requirements for Microsoft Windows servers and Windows client PCs. 24 pages

**For configuration information, refer to**

**Avaya Integrated Management  
Release 4.0.1**

**Enterprise Network Management  
Configuration**

14-300210, Issue 4, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0/14\\_300210\\_4.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0/14_300210_4.pdf)

Provides a broad overview of the Avaya Integrated Management Enterprise Network Management applications and device managers. It also contains procedures that must be performed after the Enterprise Network Management applications and device managers are installed. 46 pages

**For administration information, refer to**

**Avaya Integrated Management  
Release 4.0.1**

**Distributed Office Central Manager**

**Help system** (integrated with the application) and

**Standalone help system** (accessible from support.avaya.com)

14-602113, Issue 1, May 2007

<http://support.avaya.com/japple/css/japple?temp.documentID=317853&temp.productID=308425&temp.releaseID=316937&temp.bucketID=160257&PAGE=Document>

Provides field definitions and procedures for Distributed Office Central Manager, including: remotely administered templates for each specialized type of branch (almost everything non-local can be set by template), and remote administration tuning to customize each branch as necessary (for station user names and similar data, for auto attendants and voice mail, and for totally unique situations that apply to special branches). 300 topics

**Avaya Distributed Office**

**Release 1.1**

**Local Manager**

**Help system** (integrated with the application) and

**Standalone help system** (accessible from support.avaya.com)

14-601953, Issue 1, May 2007

<http://support.avaya.com/japple/css/japple?temp.documentID=317857&temp.productID=308425&temp.releaseID=316937&temp.bucketID=160257&PAGE=Document>

Provides field definitions and procedures that allow you to manage and maintain the Avaya Distributed Office system located at a branch location, including: manage users (add, modify, and move extensions), manage system features, manage the built-in voice mail system, manage the built-in automated attendant system, create system "profiles" that you can program to Avaya Distributed Office systems at other locations in your company, back up the programming from the system, restore the programming from a back up, view and troubleshoot alarms, view diagnostic information from the Avaya Distributed Office system, and generate reports. 494 topics

**For implementation information, refer to**

**Avaya Integrated Management  
Release 4.0**

**Implementation Guidelines**

14-601823, Issue 2, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_601823\\_2.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_601823_2.pdf)

Provides an overall strategy for implementing the applications in the various Integrated Management offers, including: Administration Tools, VoIP Monitoring Management, Enterprise Network Management, System Management, and Enterprise Network Management for Distributed office. It also describes the roles and responsibilities of the customer and Avaya Services. It also contains pre-implementation requirements of the network management computing platforms, pre-implementation installation of the operating system on the computing platforms, and post-implementation verification checklist. 52 pages

**For provisioning information, refer to**

**Avaya Integrated Management**

**Provisioning and Installation Manager**

**Help system** (integrated with the application) and

**Standalone Help System** (accessible from support.avaya.com)

14-300612, Issue 3, February 2007

<http://support.avaya.com/japple/css/japple?temp.documentID=314236&temp.productID=308425&temp.releaseID=316937&temp.bucketID=160257&PAGE=Document>

Provides information on setting up and using Provisioning and Installation Manager. 262 topics

**Electronic Preinstallation Worksheet (EPW) for Provisioning and Installation Manager**

February 2007

<http://support.avaya.com/japple/css/japple?temp.documentID=316404&temp.productID=308425&temp.releaseID=316937&temp.bucketID=160259&PAGE=Document>

The Electronic Pre-installation Worksheet (EPW) is a Microsoft Excel 2000/2002/2003 file that provides a mechanism for collecting information before installing a gateway (G250, G250-DCP, G250-DS1, G250-BRI, G350, IG550) and reduces your preparation time before using the Provisioning Installation Manager. The Microsoft Excel file can be easily edited and routed to others who are installing a gateway. The parameters you define automatically populate the device profile during the import of the EPW.

**For information on network management applications, refer to**

**Avaya Integrated Management**

**Network Management Console**

**Release 4.0.1**

**Help system** (integrated with the application) and

**User Guide**

14-300169, Issue 6, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_300169\\_6.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_300169_6.pdf)

Provides an overview of Network Management in Standalone Mode Concepts and Avaya Network Management Server. Also describes the Avaya Network Management Console network tree and network table and contains information on the application launcher, network maps, discovery window, event manager, and remote access. 168 pages

**Avaya Integrated Management**

**Release 4.0.1**

**Secure Access Administration**

**Help system** (integrated with the application) and

**User Guide**

14-300537, Issue 3, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_300537\\_3.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_300537_3.pdf)

Provides instructions on how to configure device user administration parameters and all administrative tasks. 36 pages

**Avaya Integrated Management**

**Release 4.0.1**

**Software Update Manager**

**Help system** (integrated with the application) and

**User Guide**

14-300168, Issue 5, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_300168\\_5.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_300168_5.pdf)

Provides instructions on starting and closing the Avaya Software Update Manager, using the Device Table, adding devices to the Device Table, downloading software to devices, and using the Avaya Software Update Manager Analyzer and log files. 110 pages

**Avaya Integrated Management  
Release 4.0.1**

**User Administration**

**Help system** (integrated with the application) and  
**User Guide**

14-601847, Issue 1, May 2007

[http://support.avaya.com/elmodocs2/intmgmt/r4\\_0\\_1/14\\_601847\\_1.pdf](http://support.avaya.com/elmodocs2/intmgmt/r4_0_1/14_601847_1.pdf)

Provides instructions on how to create and manage network management users. 22 pages

**Avaya Network Configuration Manager**

**User Guide**

14-300167, Issue 1, May 2004 (Issue 2 will be available in July 2007)

[http://support.avaya.com/elmodocs2/intmgmt/r2\\_1/14\\_300167\\_1.pdf](http://support.avaya.com/elmodocs2/intmgmt/r2_1/14_300167_1.pdf)

Provides instructions for starting and closing the Network Configuration Manager. It also provides information on the user interface, instructions on changing the Network Configuration Manager options, saving device configurations, and downloading configuration files. 60 pages

**Avaya SMON Manager**

**User Guide**

14-300209, Issue 3, February 2006

[http://support.avaya.com/elmodocs2/intmgmt/r3\\_1/14\\_300209\\_3.pdf](http://support.avaya.com/elmodocs2/intmgmt/r3_1/14_300209_3.pdf)

Provides instructions on how to use online SMON Manager applications and SMON History. It also contains a full menu structure in Avaya SMON Manager and explains how to set up the license. 96 pages

**For information on device managers, refer to**

**Avaya C360 Manager**

**User Guide**

14-300164, Issue 2, June 2005

[http://support.avaya.com/elmodocs2/intmgmt/r3/14\\_300164\\_2.pdf](http://support.avaya.com/elmodocs2/intmgmt/r3/14_300164_2.pdf)

Provides instructions on starting the Avaya C360 Manager and information pertaining to the Avaya C360 Device Manager, including: device configuration, Power over Ethernet (PoE), G700 Media Gateway, VoIP Engine configuration, WAN configuration, Port RMON, VLANs, Link Aggregation Groups (LAGs), port redundancy, port mirroring, IP Multicast filtering, trap managers configuration, switch connected addresses, and port security. 286 pages

**Avaya C360 SMON**

**User Guide**

14-300207, Issue 1, May 2004

[http://support.avaya.com/elmodocs2/intmgmt/r2\\_1/14\\_300207\\_1.pdf](http://support.avaya.com/elmodocs2/intmgmt/r2_1/14_300207_1.pdf)

Provides Instructions on launching the Avaya C360 SMON and the Device SMON tools. It also contains information on the Device SMON user interface, switch statistics, port statistics, extended port statistics, VLAN statistics, and alarms and events. 87 pages

**Avaya G250/G350 Manager**

**User Guide**

14-300166, Issue 4, Feb 2006

[http://support.avaya.com/elmodocs2/intmgmt/r3\\_1/14\\_300166\\_4.pdf](http://support.avaya.com/elmodocs2/intmgmt/r3_1/14_300166_4.pdf)

Provides instructions on starting the Avaya G250/G350 Manager and information pertaining to the Avaya G250/G350 device manager, routing manager, and policy based routing manager. 336 pages
