Subject: IP DECT BASE STATIONS
Region: All Regions

Revision History

Revision Date	Reason for change
*2-December-2011	End of Sale Effective date moved to March 5, 2012 to allow a smoother transition to the replacement products. See related changes in updated "Schedule" section,

Summary

Avaya is announcing to make available a new hardware version of the IP DECT Base Stations used on the DECT R4 product range. The current version of IP DECT Base Stations will go End of Sale and be replaced by the new version.

Effective [March 5th, 2012](#) Avaya will no longer make commercially available the current version of the IP DECT Base Stations. The new IP DECT base stations are backwards compatible with systems already installed providing all the base stations in the system run the latest s/w.

[Please note that once stocks of the current version of the IP DECT Base Stations are exhausted any orders will be fulfilled with the replacement item.](#)

Discontinued Order Codes and Migration Strategy

Discontinued and Replacement Codes

Material Code	Description	Replacement Code	Description
700466394	DECT IP RBS W/INT ANTNA	700502016	DECT IP RBS V2 W/INT ANTNA
700466402	DECT IP RBS W/EXTL ANTNA	700502015	DECT IP RBS V2 W/EXTL ANTNA
700480080	DECT IP RBS COMPACT IP OFFICE	700502034	DECT IP RBS V2 COMPACT IP OFFICE

Migration Strategy

Customers should move from the current IP DECT Base Station to the new one when ordering new DECT R4 systems or when expanding existing systems.

Software Dependencies

A new version of IP DECT Base Station software will be introduced with the new base stations. This will be backward compatible with current IP DECT Base Stations and must be used in any system containing the new base stations. There is no requirement to upgrade the software of base stations in systems that do not have the new versions of base station.

Schedule
