Migration Strategy

Avaya now offers the following alternative solutions:

The Avaya B149 Conference Phone (Analog) delivers the ability to support several new advanced features such as integrated Secure Digital (SD) memory card recording. For customers requiring additional analog conference phone functionality and connectivity options (e.g. USB or Mobile devices), the B159 Conference Phone model should be evaluated.

The Avaya B179 Conference Phone (SIP) delivers delivers clear, natural sound from OmniSound 2.0, Avaya's patented wideband audio technology. The phone is packed with intelligent features for more efficient conference calls. The Avaya B179 accommodates expansion microphones, an external wireless headset, and a PA system, making it ideal for large conferences.
