System Expansion post-End of Sale

New system sales will end on the date indicated in the schedule table.

Migration Strategy

Avaya now offers an alternative solution: Scopia XT Premium Camera is replaced by Scopia XT Deluxe Camera, and all the bundles (XT5000, XT7100, XT for IP Office) can be replaced using codec-only versions of the respective codec, with desired camera and POD, with a resulting better granularity of the offer (see the below picture).

The price of the existing *codec only* options (XT5000 and XT Server for IP Office) and price of new product (XT7100 codec only) have been positioned to allow a smooth transition with unchanged price for the combination of the single parts.

The replacement of the below table are available at the same resulting price list of the original bundle. ASD will provide guidance to order the new products.
