Purpose

This document contains information on SDK compatibility and change history specific to this SDK. Please refer to the product documentation for more details.

Publication History

Issue	Change Summary	Date
01	Updated OI RefClient third party libraries	20-11-2017

Change History

SDK Version 7.0.2 (Current Version)

There have been no changes to the CCT Open Interfaces web services in this release. The thirdparty libraries used have been updated, most importantly Apache CXF. This release of the SDK contains a newly built version of the Reference Client using the updated libraries.

Versions and Compatibility

What is Compatible

	AACC 7.0.2	AACC 7.0.1	AACC 7.0
CCT_OI_SDK_7.0.2	Yes	Yes	Yes
CCT_OI_SDK_7.0	Yes	Yes	Yes

General Compatibility Information

This SDK contains guidelines and tutorials on how to use the CCT Open Interfaces. The interface itself is defined in a WSDL available on the Contact Center Server and as such is not bound to the SDK version.

The WSDL definition has not been updated in 7.0.2.
