The Open Source Components are provided "AS IS". ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT HOLDERS OR THE CONTRIBUTORS OF THE OPEN SOURCE COMPONENTS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THE PRODUCT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. Avaya provides a limited warranty on the Product that incorporates the Open Source Components. Refer to your customer sales agreement to establish the terms of the limited warranty. GCC GPL 2.0 with inclusion or link exception
As a special exception, you may use this file as part of a free software library without restriction. Specifically, if other files
instantiate templates or use macros or inline functions from this file, or you compile this file and link it with other files to
produce an executable, this file does not by itself cause the resulting executable to be covered by the GNU General Public
License. This exception does not however invalidate any other reasons why the executable file might be covered by the GNU General
Public License.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

    This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

    Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

    You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

    You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

    You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

        You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

        You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

        If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

    These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

    Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

    In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

    You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the

terms of Sections 1 and 2 above provided that you also do one of the following:

      Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

      Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

      Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

    The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

    If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

    You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

    You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

    Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

    If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

    If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

    It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

    This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

    If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

    The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

    Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

    If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

    NO WARRANTY

    BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM

PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the program's name and a brief idea of what it does.
Copyright (C)

This program is free software; you can redistribute it and/or
modify it under the terms of the GNU General Public License
as published by the Free Software Foundation; either version 2
of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.

You should have received a copy of the GNU General Public License
along with this program; if not, write to the Free Software
Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details
type `show w'. This is free software, and you are welcome
to redistribute it under certain conditions; type `show c'
for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright
interest in the program `Gnomovision'
(which makes passes at compilers) written
by James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

NETSCAPE PUBLIC LICENSE
Version 1.0
=======================

1. Definitions.

   1.1. ``Contributor'' means each entity that creates or contributes to the
   creation of Modifications.

   1.2. ``Contributor Version'' means the combination of the Original Code, prior
   Modifications used by a Contributor, and the Modifications made by that
   particular Contributor.

   1.3. ``Covered Code'' means the Original Code or Modifications or the
   combination of the Original Code and Modifications, in each case including
   portions thereof.

   1.4. ``Electronic Distribution Mechanism'' means a mechanism generally accepted
   in the software development community for the electronic transfer of data.

   1.5. ``Executable'' means Covered Code in any form other than Source Code.

   1.6. ``Initial Developer'' means the individual or entity identified as the
   Initial Developer in the Source Code notice required by Exhibit A.

   1.7. ``Larger Work'' means a work which combines Covered Code or portions
   thereof with code not governed by the terms of this License.

   1.8. ``License'' means this document.

   1.9. ``Modifications'' means any addition to or deletion from the substance or
   structure of either the Original Code or any previous Modifications. When
   Covered Code is released as a series of files, a Modification is:

      A. Any addition to or deletion from the contents of a file containing
      Original Code or previous Modifications.

      B. Any new file that contains any part of the Original Code or previous
      Modifications.

   1.10. ``Original Code'' means Source Code of computer software code which is
   described in the Source Code notice required by Exhibit A as Original Code, and
   which, at the time of its release under this License is not already Covered
   Code governed by this License.

   1.11. ``Source Code'' means the preferred form of the Covered Code for making
   modifications to it, including all modules it contains, plus any associated
   interface definition files, scripts used to control compilation and
   installation of an Executable, or a list of source code differential
   comparisons against either the Original Code or another well known, available
   Covered Code of the Contributor's choice. The Source Code can be in a
   compressed or archival form, provided the appropriate decompression or
   de-archiving software is widely available for no charge.

   1.12. ``You'' means an individual or a legal entity exercising rights under,
   and complying with all of the terms of, this License or a future version of
   this License issued under Section 6.1. For legal entities, ``You'' includes any
   entity which controls, is controlled by, or is under common control with You.
   For purposes of this definition, ``control'' means (a) the power, direct or

indirect, to cause the direction or management of such entity, whether by
contract or otherwise, or (b) ownership of fifty percent (50%) or more of the
outstanding shares or beneficial ownership of such entity.

2. Source Code License.

   2.1. The Initial Developer Grant.
   The Initial Developer hereby grants You a world-wide, royalty-free,
   non-exclusive license, subject to third party intellectual property claims:

      (a) to use, reproduce, modify, display, perform, sublicense and distribute
      the Original Code (or portions thereof) with or without Modifications, or as
      part of a Larger Work; and

      (b) under patents now or hereafter owned or controlled by Initial Developer,
      to make, have made, use and sell (``Utilize'') the Original Code (or portions
      thereof), but solely to the extent that any such patent is reasonably
      necessary to enable You to Utilize the Original Code (or portions thereof)
      and not to any greater extent that may be necessary to Utilize further
      Modifications or combinations.

   2.2. Contributor Grant.
   Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive
   license, subject to third party intellectual property claims:

      (a) to use, reproduce, modify, display, perform, sublicense and distribute
      the Modifications created by such Contributor (or portions thereof) either on
      an unmodified basis, with other Modifications, as Covered Code or as part of
      a Larger Work; and

      (b) under patents now or hereafter owned or controlled by Contributor, to
      Utilize the Contributor Version (or portions thereof), but solely to the
      extent that any such patent is reasonably necessary to enable You to Utilize
      the Contributor Version (or portions thereof), and not to any greater extent
      that may be necessary to Utilize further Modifications or combinations.

3. Distribution Obligations.

   3.1. Application of License.
   The Modifications which You create or to which You contribute are governed by
   the terms of this License, including without limitation Section 2.2. The Source
   Code version of Covered Code may be distributed only under the terms of this
   License or a future version of this License released under Section 6.1, and You
   must include a copy of this License with every copy of the Source Code You
   distribute. You may not offer or impose any terms on any Source Code version
   that alters or restricts the applicable version of this License or the
   recipients' rights hereunder. However, You may include an additional document
   offering the additional rights described in Section 3.5.

   3.2. Availability of Source Code.
   Any Modification which You create or to which You contribute must be made
   available in Source Code form under the terms of this License either on the
   same media as an Executable version or via an accepted Electronic Distribution
   Mechanism to anyone to whom you made an Executable version available; and if
   made available via Electronic Distribution Mechanism, must remain available for
   at least twelve (12) months after the date it initially became available, or at
   least six (6) months after a subsequent version of that particular Modification
   has been made available to such recipients. You are responsible for ensuring
   that the Source Code version remains available even if the Electronic
   Distribution Mechanism is maintained by a third party.

   3.3. Description of Modifications.
   You must cause all Covered Code to which you contribute to contain a file
   documenting the changes You made to create that Covered Code and the date of
   any change. You must include a prominent statement that the Modification is
   derived, directly or indirectly, from Original Code provided by the Initial
   Developer and including the name of the Initial Developer in (a) the Source
   Code, and (b) in any notice in an Executable version or related documentation
   in which You describe the origin or ownership of the Covered Code.

   3.4. Intellectual Property Matters

      (a) Third Party Claims.
      If You have knowledge that a party claims an intellectual property right in
      particular functionality or code (or its utilization under this License), you
      must include a text file with the source code distribution titled ``LEGAL''
      which describes the claim and the party making the claim in sufficient detail
      that a recipient will know whom to contact. If you obtain such knowledge
      after You make Your Modification available as described in Section 3.2, You
      shall promptly modify the LEGAL file in all copies You make available
      thereafter and shall take other steps (such as notifying appropriate mailing
      lists or newsgroups) reasonably calculated to inform those who received the

Covered Code that new knowledge has been obtained.

   (b) Contributor APIs.
   If Your Modification is an application programming interface and You own or
   control patents which are reasonably necessary to implement that API, you
   must also include this information in the LEGAL file.

   3.5. Required Notices.
   You must duplicate the notice in Exhibit A in each file of the Source Code, and
   this License in any documentation for the Source Code, where You describe
   recipients' rights relating to Covered Code. If You created one or more
   Modification(s), You may add your name as a Contributor to the notice described
   in Exhibit A. If it is not possible to put such notice in a particular Source
   Code file due to its structure, then you must include such notice in a location
   (such as a relevant directory file) where a user would be likely to look for
   such a notice. You may choose to offer, and to charge a fee for, warranty,
   support, indemnity or liability obligations to one or more recipients of
   Covered Code. However, You may do so only on Your own behalf, and not on behalf
   of the Initial Developer or any Contributor. You must make it absolutely clear
   than any such warranty, support, indemnity or liability obligation is offered
   by You alone, and You hereby agree to indemnify the Initial Developer and every
   Contributor for any liability incurred by the Initial Developer or such
   Contributor as a result of warranty, support, indemnity or liability terms You
   offer.

   3.6. Distribution of Executable Versions.
   You may distribute Covered Code in Executable form only if the requirements of
   Section 3.1-3.5 have been met for that Covered Code, and if You include a
   notice stating that the Source Code version of the Covered Code is available
   under the terms of this License, including a description of how and where You
   have fulfilled the obligations of Section 3.2. The notice must be conspicuously
   included in any notice in an Executable version, related documentation or
   collateral in which You describe recipients' rights relating to the Covered
   Code. You may distribute the Executable version of Covered Code under a license
   of Your choice, which may contain terms different from this License, provided
   that You are in compliance with the terms of this License and that the license
   for the Executable version does not attempt to limit or alter the recipient's
   rights in the Source Code version from the rights set forth in this License. If
   You distribute the Executable version under a different license You must make
   it absolutely clear that any terms which differ from this License are offered
   by You alone, not by the Initial Developer or any Contributor. You hereby agree
   to indemnify the Initial Developer and every Contributor for any liability
   incurred by the Initial Developer or such Contributor as a result of any such
   terms You offer.

   3.7. Larger Works.
   You may create a Larger Work by combining Covered Code with other code not
   governed by the terms of this License and distribute the Larger Work as a
   single product. In such a case, You must make sure the requirements of this
   License are fulfilled for the Covered Code.

4. Inability to Comply Due to Statute or Regulation.

   If it is impossible for You to comply with any of the terms of this License
   with respect to some or all of the Covered Code due to statute or regulation
   then You must: (a) comply with the terms of this License to the maximum extent
   possible; and (b) describe the limitations and the code they affect. Such
   description must be included in the LEGAL file described in Section 3.4 and
   must be included with all distributions of the Source Code. Except to the
   extent prohibited by statute or regulation, such description must be
   sufficiently detailed for a recipient of ordinary skill to be able to
   understand it.

5. Application of this License.

   This License applies to code to which the Initial Developer has attached the
   notice in Exhibit A, and to related Covered Code.

6. Versions of the License.

   6.1. New Versions.
   Netscape Communications Corporation (``Netscape'') may publish revised and/or
   new versions of the License from time to time. Each version will be given a
   distinguishing version number.

   6.2. Effect of New Versions.
   Once Covered Code has been published under a particular version of the License,
   You may always continue to use it under the terms of that version. You may also
   choose to use such Covered Code under the terms of any subsequent version of
   the License published by Netscape. No one other than Netscape has the right to
   modify the terms applicable to Covered Code created under this License.

6.3. Derivative Works.
If you create or use a modified version of this License (which you may only do
in order to apply it to code which is not already Covered Code governed by this
License), you must (a) rename Your license so that the phrases ``Mozilla'',
``MOZILLAPL'', ``MOZPL'', ``Netscape'', ``NPL'' or any confusingly similar
phrase do not appear anywhere in your license and (b) otherwise make it clear
that your version of the license contains terms which differ from the Mozilla
Public License and Netscape Public License. (Filling in the name of the Initial
Developer, Original Code or Contributor in the notice described in Exhibit A
shall not of themselves be deemed to be modifications of this License.)

7. DISCLAIMER OF WARRANTY.

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN ``AS IS'' BASIS, WITHOUT
WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT
LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE,
FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED
CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY
OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR
CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS
LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS
DISCLAIMER.

8. TERMINATION.

This License and the rights granted hereunder will terminate automatically if
You fail to comply with terms herein and fail to cure such breach within 30
days of becoming aware of the breach. All sublicenses to the Covered Code which
are properly granted shall survive any termination of this License. Provisions
which, by their nature, must remain in effect beyond the termination of this
License shall survive.

9. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING
NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL THE INITIAL DEVELOPER, ANY OTHER
CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH
PARTIES, BE LIABLE TO YOU OR ANY OTHER PERSON FOR ANY INDIRECT, SPECIAL,
INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT
LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR
MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH
PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS
LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL
INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW
PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR
LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THAT EXCLUSION AND
LIMITATION MAY NOT APPLY TO YOU.

10. U.S. GOVERNMENT END USERS.

The Covered Code is a ``commercial item,'' as that term is defined in 48 C.F.R.
2.101 (Oct. 1995), consisting of ``commercial computer software'' and
``commercial computer software documentation,'' as such terms are used in 48
C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R.
227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users
acquire Covered Code with only those rights set forth herein.

11. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter
hereof. If any provision of this License is held to be unenforceable, such
provision shall be reformed only to the extent necessary to make it
enforceable. This License shall be governed by California law provisions
(except to the extent applicable law, if any, provides otherwise), excluding
its conflict-of-law provisions. With respect to disputes in which at least one
party is a citizen of, or an entity chartered or registered to do business in,
the United States of America: (a) unless otherwise agreed in writing, all
disputes relating to this License (excepting any dispute relating to
intellectual property rights) shall be subject to final and binding
arbitration, with the losing party paying all costs of arbitration; (b) any
arbitration relating to this Agreement shall be held in Santa Clara County,
California, under the auspices of JAMS/EndDispute; and (c) any litigation
relating to this Agreement shall be subject to the jurisdiction of the Federal
Courts of the Northern District of California, with venue lying in Santa Clara
County, California, with the losing party responsible for costs, including
without limitation, court costs and reasonable attorneys fees and expenses. The
application of the United Nations Convention on Contracts for the International
Sale of Goods is expressly excluded. Any law or regulation which provides that
the language of a contract shall be construed against the drafter shall not
apply to this License.

12. RESPONSIBILITY FOR CLAIMS.

   Except in cases where another Contributor has failed to comply with Section 3.4,
   You are responsible for damages arising, directly or indirectly, out of Your
   utilization of rights under this License, based on the number of copies of
   Covered Code you made available, the revenues you received from utilizing such
   rights, and other relevant factors. You agree to work with affected parties to
   distribute responsibility on an equitable basis.

AMENDMENTS
Additional Terms applicable to the Netscape Public License.

   I. Effect.
   These additional terms described in this Netscape Public License -- Amendments
   shall apply to the Mozilla Communicator client code and to all Covered Code
   under this License.

   II. ``Netscape's Branded Code'' means Covered Code that Netscape distributes
   and/or permits others to distribute under one or more trademark(s) which are
   controlled by Netscape but which are not licensed for use under this License.

   III. Netscape and logo.
   This License does not grant any rights to use the trademark ``Netscape'', the
   ``Netscape N and horizon'' logo or the Netscape lighthouse logo, even if such
   marks are included in the Original Code.

   IV. Inability to Comply Due to Contractual Obligation.
   Prior to licensing the Original Code under this License, Netscape has licensed
   third party code for use in Netscape's Branded Code. To the extent that
   Netscape is limited contractually from making such third party code available
   under this License, Netscape may choose to reintegrate such code into Covered
   Code without being required to distribute such code in Source Code form, even
   if such code would otherwise be considered ``Modifications'' under this
   License.

   V. Use of Modifications and Covered Code by Initial Developer.

      V.1. In General.
      The obligations of Section 3 apply to Netscape, except to the extent
      specified in this Amendment, Section V.2 and V.3.

      V.2. Other Products.
      Netscape may include Covered Code in products other than the Netscape's
      Branded Code which are released by Netscape during the two (2) years
      following the release date of the Original Code, without such additional
      products becoming subject to the terms of this License, and may license such
      additional products on different terms from those contained in this License.

      V.3. Alternative Licensing.
      Netscape may license the Source Code of Netscape's Branded Code, including
      Modifications incorporated therein, without such additional products becoming
      subject to the terms of this License, and may license such additional
      products on different terms from those contained in this License.

   VI. Arbitration and Litigation.
   Notwithstanding the limitations of Section 11 above, the provisions regarding
   arbitration and litigation in Section 11(a), (b) and (c) of the License shall
   apply to all disputes relating to this License.
