

# Migrating from AUDIX Voice Power to Avaya Intuity AUDIX

---

This file lists the tasks required to migrate the data from any one of the following AUDIX Voice Power releases to the Avaya Intuity system:

- Release 2.0
- Release 2.1
- Release 2.1.1 (also available from Integrated Solutions III)
- Release 3

The tasks are grouped into these general areas:

- Preparing for the migration (page 2)
- Migrating the data (page 2)
- Completing the migration (page 2)

## Migration Checklist

To migrate from an AUDIX Voice Power system to the Avaya Intuity system:

Area	Task
<b>Preparing for the migration</b>	1. <a href="#">Gather the information and materials</a> you need.
	2. <a href="#">Verify that the customer understands</a> his responsibility to make the administrative changes required for the migration.
	3. <a href="#">Record the AUDIX Voice Power profile information</a> .
	4. <a href="#">Install the migration software</a> .
<b>Migrating the data</b>	5. <a href="#">Install the switch integration circuit card</a> .
	6. <a href="#">Administer the Avaya Intuity voice ports</a> .
	7. <a href="#">Back up the AUDIX Voice Power data</a> .
	8. <a href="#">Preadminister the Avaya Intuity system</a> .
	9. <a href="#">Run the data transfer</a> .
	10. <a href="#">Check the log file</a> .
	11. <a href="#">Verify the data transfer</a> .
<b>Completing the migration</b>	12. <a href="#">Remove the migration software</a> .
	13. <a href="#">Administer the automated attendants</a> .
	14. <a href="#">Administer the switch</a> . <b>Note:</b> Use the same extension for the Avaya Intuity hunt group and the Digital Communications Protocol (DCP) extension for the AUDIX Voice Power system. subscribers can then use the same telephone number to dial in to the Avaya Intuity system as they used with the AUDIX Voice Power system. This also avoids subscriber coverage path readministration.
